Objectives

1. Please describe your Organisation's mission and purpose (please attach any mission or policy statement for your Organisation, if in writing, or provide a URL, if posted):

The Association of Internet Users of Peru (AUI PERU). The goal of its creation is to promote, without seeking profit, the use of information highways and national and international telecommunication networks, particularly the INTERNET, encouraging its use as a fundamental tool for human development and in all areas of daily life. Its goal is also to protect the interests of users of telecommunication networks and the internet. To this end, it proposes initiatives for their regulation before the relevant authorities in the interest of society and of its members.

The primary goals of the AUI PERU include:

Promoting the consolidation of internet access services in Peru by conducting seminars, forums, conferences, congresses, studies and research related to the internet.

Promoting an appropriate relationship between economic factors linked to the internet and its rational use as a basic resource for development.

Promoting strategic public-private alliances for developing communications and the internet in the poorest areas of the country.

Defending the interests of the public and our members in cases where government or privately-led legislative initiatives impact legal, administrative, commercial or other interests related to the internet.

Conducting market evaluations and studies, directly or via third parties, that will help direct the development of the internet in the country. Monitoring the establishment of accessible fees for all services related to the internet that do not limit or block their free access.

Developing interinstitutional agreements with recognized entities for providing certified training courses to members and other willing participants.

Implementing and developing discussion forums regarding internet security policies.

Articulating and promoting economic relationships between social and industrial players to complement the socioeconomic development of our communities.

Establishing agreements with other user associations, both domestic and foreign, social organizations, NGOs, international cooperation organizations, private companies, universities and other entities for the purpose of benefitting communities in the country as well as their members.

2. What ICANN-related issues currently are of interest to your Organisation's constituents/membership:

Contributing to the bridging of the digital gap, promoting the use of the internet and the Administration and Management of ccTLD Domain Names and Numbers (.pe).
