

AGEIA DENSI Brazil

AGEIA DENSI Brazil is a study group that has as its main objective the provision of support and monitoring of its collaborators, in respect of preparation programs, teaching, research, dissemination and extension proposed, as well as the possibility of providing advice in legal, economic and business issues related to Information and Internet Society, to third parties on request.

AGEIA DENSI Brazil's website is instantly promoted by all members and employees of the virtual study group, valuing the same interactivity, speed and efficiency that the Internet provides to our community.

AGEIA DENSI Brazil's Objectives

- Encourage and support legal, economic and business research by encouraging and supporting studies and research in the following areas of your object:

a) Teaching: the proposal of conducting courses through electronic media, conferences, roundtables, seminars, symposiums and lectures.

b) Consulting: dedicated to provide advice on all areas of Law, Economics and Business, whether in person, distance and other means.

c) Community Outreach: objective information and advice from third parties, enabling the dissemination of knowledge through technological means to which they have access, aiming for narrowing the distance between supranational organizations, and users and consumers. Fomentation of important publications to the progress of legal science, economics and business in the Information Society;

- To support and promote material support bases for the better accomplishment of programs and functions of the Association, in strict collaboration with the structure of the University Extension Center - UEC, a higher education institution based in the city of São Paulo, São Paulo;

- Attend, train and support all interested parties to make efforts in the training of subjects relevant to employees;

- Find contributions in business sectors and possible solutions to enable ideas and investigations.
