

Latin American Institute for Information Society Research

Non-profit organization, with a presence in 24 countries. We have 92 members, making us a heterogeneous group of students, attorneys, engineers, social psychologists, journalists, IT specialists, mathematicians, notaries, accountants, social workers, philosophers and technicians from various fields. We are working hard as an ALS in ICANN, with active participation.

Latin American Institute for Information Society Research: Objectives

To promote the handling of information in different countries from Latin America, related with the Information Society and its ample spectrum, while interacting with the public and private sectors in aims of providing for the community of Latin America the essential elements that tend to bring about concrete achievements and the unification of criteria, which make possible the generation of effective legislation.

Latin American Institute for Information Society Research: Activities and Accomplishments

Participation in ICANN. We have been called upon for various legislative subjects, both in the House of Representatives and the Senate of the Republic of Argentina. We have signed agreements with various universities in Latin America, to carry out research on the Information Society.
