

ISOC Peru

ISOC Peru is a chapter of the Internet Society, and is an international non-profit organization, founded in 1992 to provide leadership for standards related to Internet education and policy. With offices in Washington DC, United States and Geneva, Switzerland, we seek to assure the development, evolution and capitalization of Internet, in order to benefit people all over the world.

ISOC Peru: Objectives

The Internet Society not only acts as a center for the global exchange of information on the Internet and education, but also as a facilitator and coordinator for initiatives related to the Internet, from all across the globe. For over 15 years now, the ISOC has been developing international training programs for developing countries, those which have taken on a vital role for the growth of Internet access, with respect to both quality and quantity.

ISOC Peru: Activities and Accomplishments
